- · Auto-off after three minutes or manual-off
- Capacity: 7 oz / 200 g
- Accuracy: 0.001 oz / 0.01 g
- Platform dimensions: 3" x 2.5" / 76 mm x 64.6 mm
- Blue backlight LCD screen dimensions: 0.9" x 0.4" / 23.8 mm x 11 mm

#### BATTERIES

- Requires 2 AAA batteries (included).
- Remove isolation sheet before use.

# TO REPLACE BATTERIES

- Open battery case cover underneath the scale.
- Take out the used batteries and install new ones. Make sure to respect the polarity.
- Close battery case cover.

#### BUTTONS

#### WEIGHING MODE

- Place the scale on a solid and flat surface.
- Press 🕑 button to turn on the scale.
- Wait until LCD screen shows "0.0" to start weighing.
- Press M button to convert to weight mode if needed.
- Load weighing object on scale. Always place the object in the center of the platform. LCD screen will show the weight reading.

## UNIT CONVERSION

- Press M button to switch
  - the weight measure.

#### TARE FUNCTION

To weigh different loads consecutively without removing loads from the scale, put the first load

on the scale to obtain a weight reading. Press  $\fboxtimestic{T}$  button to reset the LCD reading to "0.00" before adding next load. You can repeat operation.

#### **AUTO SHUT OFF & MANUALLY SHUT OFF**

Auto shut off occurs if display shows "0" or shows the same weight reading for 3 minutes.

To maximize battery life, it is recommended to shut off manually the scale. Press () button for 3 seconds and the scale will turn off.
